OSC Mission Contract, Section II.C: Communication and Outreach

Statement of Work: Environmental Innovations: Sustainable Approaches to Development

Contract Number: EP-W-11-009/010/011

RFO Number 26

I. TITLE:

Green Building Website Support for the Office of Sustainable Communities

II. PERIOD OF PERFORMANCE

From: Date of Award

To: April 1, 2013

III. BACKGROUND

The Office of Sustainable Communities (OSC) develops and implements strategies for EPA and other federal agencies to achieve the benefits of smart growth and green building. OSC maintains www.epa.gov/smartgrowth and hosts EPA's green building (<http://www.epa.gov/greenbuilding>) and green homes (<http://www.epa.gov/greenhomes>) websites. OSC has developed an overall structure for a new green building website, which will focus on green building resources available from EPA.

IV. PURPOSE AND OBJECTIVE

OSC seeks contractor support for overhauling EPA's green building website. Tasks will include developing green building pages; reorganizing and in many cases freshening existing content to fit into a new structure, and recommending methods for EPA to maintain the site once the contract has expired. At the direction of the TOPO, the contractor shall communicate with technical experts within EPA to gather information for the site; identify appropriate topics, links, and images for each page; and write or edit content in accordance with EPA's web guidelines. The contractor shall provide content in Word; EPA's existing web contractor will program the pages.

As currently envisioned, the website will include the following four sections:

1. Home Page (see Attachment 1)
2. What Is Green Building?
 - Overview/Benefits
 - Building Types
 - Codes, Standards, and Rating Systems
3. Green Building Topics at EPA
 - Air Quality
 - Energy
 - Greening EPA Buildings
 - Homes
 - Location/Smart Growth
 - Products & Materials
 - Waste
 - Water
4. EPA Resources
 - Funding Opportunities
 - Publications
 - Regional and Tribal Resources
 - Research

(This outline could change based on the contractor's research and the Workgroup's input. For example, if the contractor or workgroup finds that an important section is missing, it could be added; similarly, if the contractor or workgroup finds that there is no useful information available to populate a particular section, it could be deleted.)

The website is not intended to provide an exhaustive overview of green building, but a concise overview of green building and of information available from EPA. At all points, the contractor shall consider and seek to highlight what EPA uniquely has to offer builders, remodelers, environmentalists, consumers, and other stakeholders concerned with green building.

V. QUALITY ASSURANCE (QA) REQUIREMENTS

Check [] Yes if the following is required or [X] NO if the following is not required.

The Contractor shall submit with their technical proposal a written Quality Assurance Project Plan for any project that is developing environmental measurements or a Quality

Assurance Supplement to the Quality Management Plan for any project which generates environmental data using models.

VI. TASKS AND DELIVERABLES

The TOPO will review all deliverables in draft form and provide revisions and/or comments to the contractor. The contractor shall prepare the final deliverables incorporating the TOPO's comments. Contractor shall provide the TOPO with electronic versions of all deliverables.

Contractor personnel shall at all times identify themselves as Contractor employees and shall not present themselves as EPA employees. Furthermore, they shall not represent the views of the U.S. Government, EPA, or its employees. In addition, the Contractor shall not engage in inherently governmental activities, including but not limited to actual determination of EPA policy and preparation of documents on EPA letterhead.

Deliverables must be clear, concise, and logically organized, making it as easy as possible for users to navigate the site to find the information they are seeking.

Task 1: (Contract Reference: Page 1-19, Communications and Outreach) Update the "What is Green Building?" section of the website.

This task will involve creating a landing page on "What is Green Building?" (from the EPA perspective) and developing an overview/benefits page and a building types page. The contractor shall review the existing content on the green building website, identify gaps in content and outdated information, and gather new information from technical experts at EPA as needed. With this information, the contractor shall develop a landing page for "What is green building?" and two subpages for overview/benefits and building types.

EPA is developing a page on codes, standards, and rating systems. The contractor may need to modify this page so that it folds seamlessly into the structure of the website.

Task 2: (Contract Reference: Page 1-19, Communications and Outreach) Develop the "Green Building Topics at EPA" section of the website.

The contractor shall review the website structure that OSC developed in collaboration with other offices at EPA. (Outlined above; see also Attachment 1.) Using that structure as a guide, the contractor shall gather information from technical experts at EPA as needed and, with direction from the TOPO, develop a landing page and 7 subpages:

1. Air Quality
2. Energy

3. Greening EPA Buildings
4. Homes
5. Products & Materials
6. Waste
7. Water

OSC is developing a page on Location/Smart Growth. EPA will provide a draft of this page to the contractor at the beginning of the task order; this page will serve as the template for each of the additional subpages outlined above.

Each subpage will reflect what EPA has to offer green building stakeholders in that topic area. For example, the Waste page will focus on resources and information EPA has to offer builders on reducing construction waste.

OSC is seeking a contractor with considerable experience developing content for the EPA website and working within EPA's web guidelines. All deliverables must adhere to these guidelines.

Task 3: (Contract Reference: Page 1-19, Communications and Outreach) Update the "EPA Resources" section of the website.

This task will involve gathering existing resources and then compiling them in a clear and logical manner. For Regional and Tribal Resources, the contractor shall gather information from each of the 10 EPA regions and EPA's tribal contact to identify appropriate resources. The contractor shall then develop a landing page for EPA Resources and subpages for funding opportunities, publications, regional and tribal resources, and research.

Task 4: (Contract Reference: Page 1-19, Communications and Outreach) Develop a plan for keeping the website updated after the contract has expired.

The contractor shall provide EPA with a 1- to 5-page memo on how EPA can easily keep the pages updated once the contract has expired. This plan will include the contact information for each person involved in updating pages, elements on each page that will clearly need updating and how frequently, and other elements the contractor and EPA agree would be helpful.

SCHEDULE FOR DELIVERABLES

The contractor shall provide the following specific deliverables to the EPA TOPO:

Task	Deliverables	Form and Quantity	Schedule
Task 1: Develop the "What is green building?" section of the website.	Landing page for "What is green building?" and 2 subpages for overview/benefits and building types	Up to 2 drafts and one final electronic file for each page and subpage (3 pages total)	Within 2 months of the contract award
Task 1: Develop "Green Building Topics at EPA" pages.	Landing page for "Green Building Topics at EPA" and 7 subpages: Air Quality, Energy/ENERGY STAR, Greening EPA Buildings, Homes, Products & Materials, Waste, and Water	Up to 2 drafts and one final electronic file for each page and subpage (8 pages total)	Within 4 months of the contract award
Task 3: Develop the "EPA Resources" section of the website.	Landing page for "EPA Resources" and subpages for funding opportunities, publications, regional and tribal resources, and research	Up to 2 drafts and one final electronic file for each page and subpage (5 pages total)	Within 6 months of the contract award
Task 4: Develop a plan for keeping the site updated once the contract has expired.	A 1- to 5- page memo	One draft and one final electronic file	Within 6 months of the contract award

TOPO: Susan Conbere Max Expire Date: 09/16/2013

The purpose of this modification is to:

1. Incorporate both FAR 52.232-22 - Limitation of Funds (APR 1984) and EPA local clause EPA-B-32-101 - Limitation of Funds Notice (APR 1984) into the task order contract; and

2. Deobligate excess funds in the amount of \$476.34.
